It was moved by Immediate Past President Saleh, seconded by Member Davis, to approve the consent calendar. Member Shryock said that the minutes of meeting of June 7, 2017, should be amended to include the comments from the letter from Supervisor Solis which stated that her opposition to SB 268 (Mendoza) is because of its top-down approach to mandating the structure of the MTA Board of Directors. The recommendation was accepted as an amendment to the motion. The amended motion was approved unanimously.

Whittier Mayor Joe Vinatieri addressed the Board regarding the consequences of recent criminal justice legislation that have resulted in an increase in crime rates and property damage. He referred the Board to AB 109, which transferred the responsibility of housing 45,000 criminals from state prisons to local jails, forcing the release by the jails of thousands of lower-level criminals back into the community. Proposition 47 reclassified many crimes that were previously felonies as misdemeanors. He said that because of changes made by AB 109, a man with a criminal past and recent parole violations, who under the old law would have been incarcerated, was out free when he murdered his cousin and a Whittier police officer. He asked for support of AB 1408 (Calderon), which would reduce to three the number of parole violations could be committed by offenders before they are sent back to jail.
Whittier City Manager Jeff Collier asked that cities adopt resolutions of support for AB 1408 and for other legislation that would tighten up the description of crimes under Proposition 47 that were reduced to misdemeanors. He asked also for letters from cities and the COG to the League of California Cities urging the League to adopt a resolution calling on the Governor and the Legislature to work with the League and other public stakeholders to identify strategies to mitigate the unintended consequences of these changes to the criminal law.

It was moved by Second Vice President Dutra, seconded by Member Davila, to approve the recommendation by the Whittier City Manager. The motion was approved unanimously.

Laura Renger, Principal Manager for Air and Climate Policy, Southern California Edison, gave a PowerPoint presentation entitled “Transportation Electrification: Reducing Emissions, Driving Innovation”. She said Southern California Edison supports California’s climate and clean energy goals and is working closely with state agencies to achieve them. She pointed to transportation electrification as the largest near-term opportunity to reduce greenhouse gas emissions and air pollution.

Ms. Renger described the benefits of transportation electrification, and said the electric vehicle charging load is uniquely flexible and may provide significant grid benefits. She said Edison has filed a wide-ranging plan with the PUC to expand electric transportation in its service area. She said the application has a particular focus on targeting pollution in disadvantaged communities. She described the proposed programs in Edison’s January application with the PUC, including customer rebates for residential charging station installation; rates designed to incentivize electric vehicle adoption for trucks, buses, and forklifts, and two Port of Long Beach electrification projects.

Ms. Renger said her request is for support from the Board for Edison’s application with the California Public Utilities Commission.

The Deputy Executive Director presented the proposed Fiscal Year 2017-18 Budget, saying the budget had been reviewed and approved by the City Managers Steering Committee. It was moved by Member Drummond, seconded by Member Lima, to adopt the Fiscal Year 2017-18 Budget as presented.

She said the Board approved the ability to decide on a case by case basis approval of projects outside of the one-mile distance from a
freeway. She reported the Board voted to remove the term “level of service” from the Measure M guidelines to give foot, bicycle, and transit modes of transportation the same level of consideration as for automobiles.
