Roll was taken through self-introductions.

Member Lima led the Pledge of Allegiance.

There were no amendments to the agenda.

There were no public comments.

There were no matters from staff.

It was moved by First Vice President Daniels, seconded by Member Guerrero, to approve the consent calendar. The motion was approved unanimously.

SCAG Director of Transportation Planning Rich Macias gave a PowerPoint presentation on the 2012 Regional Transportation Plan (RTP). He said the major point is that the region is out of money and needs to find new ways of generating revenue. He said gas tax revenues had not kept pace with population growth and will continue to decline.

Mr. Macias said the RTP will deviate from the original plan for Phase I of the California High Speed Rail project. He said the impact on the LOSSAN corridor and Metrolink have to be looked at first as a condition. He identified the proposed East/West Freight Corridor as a key component of the plan and asked for the support of cities at the Regional Council.

First Vice President Daniels asked where the East/West corridor is located. Mr. Macias responded that staff was going to recommend the SR-60 freeway. He said there will be some opposition from communities along the freeway, as well as a County supervisor. He said the competition for the goods movement economy that will come from the widening of the Panama Canal has made the freight corridor a very critical issue.
Member Barrios asked how tolling would help us compete with the Panama Canal. Mr. Macias said that funding is needed to improve and maintain the freight movement network.

Member Kelley asked which supervisor opposes the freight corridor alignment. Mr. Macias responded that it is Supervisor Molina, but SCAG is dedicated to work with her.

It was the consensus of the Board to receive and file the report.

There was no report from the Conservancy Committee.

Jerry Wood presented a report from the I-710 EIR/EIS Project Committee. He said the project is still on schedule for the release of the draft EIR in February or March. He reported that the early action projects of the sound walls and utilities studies are proceeding. He said the ITS project includes electrification of the freight corridor on I-710.

Jerry Wood presented a report from the SR-91/I-605/I-405 Corridor Cities Committee. He said the initial traffic modeling for the feasibility study has been completed.

It was the consensus of the Board to receive and file the two freeway corridor reports.

First Vice President Daniels presented a report from the Transportation Committee. He reported that three candidates had been interviewed to fill the vacancy for a member of the public on the Metro Gateway Cities Service Sector Council and that all three candidates were excellent. He said the Transportation Committee voted to accept the recommendation of the interview panel that the name of Marissa Perez be forwarded to the Board for nomination to fill the vacancy on the Sector Council. It was moved by Member Barrows, seconded by Member Lima, to approve the nomination of Marissa Perez to the Metro Gateway Cities Service Sector Council. The motion was approved unanimously.

The Transportation Deputy reported that the Transportation Committee had voted to forward to the Board the findings of the Environmental Committee regarding the I-710 Construction Staging Emissions Final Results:

1. Concur with the findings from the Construction Staging Emissions Analysis.
2. Suggest to Caltrans that the MTA Construction Green Equipment policy be adopted for the construction of any major freeway work.
3. Suggest to Caltrans that a construction emission analysis be prepared for each segment (and for any segments that are being constructed concurrently) prior to actual construction proceeding. Those results are to be used to develop final recommendations so that construction of the segment does not exceed significance thresholds established at that time and that additional mitigation measures be developed to reduce any emissions to the greatest extent possible—taking into consideration impacts on surrounding communities.
4. Request Caltrans to develop construction methods and staging to keep NOX emissions below significance thresholds and to develop additional watering
methods as suggested in the report to reduce fugitive dust PM 2.5 form the construction of any segment.

5. Recommend that the Environmental Committee forward the I-710 Construction Emissions Analysis Report to the I-710 Project Team and Caltrans for use in the I-710 EIR/EIS.

It was moved by Member Barrows, seconded by First Vice President Daniels, to approve the findings forwarded by the Transportation Committee and to receive and file the report. The motion was approved unanimously.

The Transportation Deputy reported that the Transportation Committee had received the Executive Summary of the Final Draft I-710 Health Impact Assessment and had voted to:

1. Authorize an independent Peer Review process of the Health Impact Assessment.
2. Specify that the Peer Review shall include inputs and comments from the I-710 Technical Working Group, roundtables, and committees.
3. Direct that, at the conclusion of the Peer Review, a final draft HIA report shall be produced and submitted to Caltrans.
4. Specify that the work product HIA report to be peer reviewed may be forwarded to the I-710 Project Team and Caltrans prior to finalization for information purposes only.

It was the consensus of the Board to receive and file the report.

The Executive Director presented a report from the Committee on Homelessness. He said the next step on the Homeless Implementation Project is to work with County staff on the RFP for an entity to administer the program on behalf of the staff. It was the consensus of the Board to receive and file the report.

La Mirada Public Works Director Steve Forster presented a report on the California High Speed Rail project. He referred the Board to a recent article in the Los Angeles Times which discussed major changes in the business plan for the project. It was the consensus of the Board to receive and file the report.

There was no report from the I-5 JPA.

There was no report from the League of California Cities.

There was no report from SCAG.

There was no report from the Orangeline Development Authority.

There was no report from the South Coast Air Quality Management District.

There was no report from the Metro Gateway Cities Service Sector.
There was no report from the Conservation Corps of Long Beach.

There was no report from the Coalition for America’s Gateways and Trade Corridors.

There were no matters from the Board of Directors.

President Dunton introduced Jacob Waclaw, Senior Transportation Engineer for the Federal Highway Administration, who was recently assigned to the Los Angeles Office of FHWA. Mr. Waclaw said that the Los Angeles office had recently expanded from four to ten people. He said he is anxious to meet with the local cities and that he will be working closely with Caltrans District 7.

**Adjournment:** The meeting was adjourned at 7:07 p.m.

Respectfully submitted,

Richard Powers, Secretary

ITEM D
Status Report from Lobbyist - Edington, Peel & Associates
Monthly Report by Jim Dykstra to Gateway Cities COG - November 22, 2011

I and the firm Edington, Peel & Associates continue to provide a range of services in support of the Gateway Cities Council of Governments. These include participation in a number of meetings, telephonic, email and fax exchanges and other communications.

I continued to closely coordinate with Gateway Cities COG staff regarding efforts on behalf of the Gateway Cities COG’s priorities and interests in the first session of the 112th Congress. I have had telephonic and electronic exchanges regarding possible funding opportunities. I also continued to work with the staff of the I-5 Joint Powers Authority on the I-5 widening initiative, the COG’s number one priority.

I have continued to focus on follow up with the Gateway Cities COG’s elected Representatives in the House of Representatives and have kept the Gateway Cities COG informed of the status of the Transportation Reauthorization Act. As I have reported, both Rep. John Mica (R-FL), chairman of the House Transportation and Infrastructure (EPW) Committee, and Sen. Barbara Boxer, chair of the Senate Environment and Public Works Committee, have indicated they hope to secure passage of the legislation in the first session of this Congress, and the Administration has said that is its goal as well. Movement on the legislation has increased, and I have provided updates on this. Funding of a bill remains the most difficult and contentious issue, and the two committees disagree on the length of the bill, with the Senate favoring two years and the House six. The Senate EPW Committee marked up its version of the measure on November 9. The House T&I Committee on November 17 unveiled its version of the bill, which would use revenue made by expanding domestic energy production to pay for infrastructure projects, which Democrats in both chambers oppose.

I participate on Gateway Cities’ behalf in conference calls and email exchanges with the Coalition for America’s Gateways and Trade Corridors (CAGTC) and provide Gateway Cities with information on CAGTC activities in Washington, DC. I suggested Gateway Cities provide an article on its initiatives for the CAGTC newsletter, something that is expected to take place in coming months.

As I have reported, both the Senate and House are not including any earmarks in the FY12 appropriations process. Despite that, Rep. Lucille Roybal-Allard accepted requests, and I am in regular touch with her office on behalf of Gateway Cities.

I have continued discussions and email exchanges with staff of Members of Congress representing Gateway Cities members, as well as other key congressional staff, regarding the COG’s legislative priorities.

As part of my responsibilities, I closely monitor legislation, as well as seminars, hearings, meetings and publications of key interest to legislators and senior executive branch officials for articles and information of possible interest and importance to member cities of the Gateway Cities COG. I attend Senate and House committee hearings, follow Senate and
House floor proceedings, and track legislative initiatives pertinent to Gateway Cities COG interests and priorities.
IX. REPORTS FROM COMMITTEES
  ITEM A
  Conservancy Committee
TO:           Board of Directors

FROM:         Councilmember Patrick O'Donnell
              Councilmember Edward Wilson

SUBJECT:      San Gabriel and Lower Los Angeles Rivers and Mountains Conservancy Update

Background

The San Gabriel and Lower Los Angeles Rivers and Mountains Conservancy (RMC) was established by State Legislation in which the COG was an active participant. The Gateway Cities are represented on the RMC Board by two members listed above.

Issue

The RMC Board met on Monday, November 28th, 2011, in Bellflower. The Board approved two resolutions authorizing grant amendments to the City of Bellflower allowing extensions of time to complete work on the Palm Street Linear Park and the Bellflower Riverview Project. Both projects’ timelines were extended to the end of 2012. The Board also approved a resolution authorizing a grant amendment to the City of Whittier for the San Gabriel River Trail connection to Pio Pico State Historic Park.

In addition, the Executive Officer reported to the Board on the following activities in the Gateway Cities:

- Several projects continue to be worked on in the Compton Creek watershed, including the City of Lynwood Pocket Parks. The RMC continues to circulate the 2010 Compton Creek Storm Drain Daylighting Feasibility Study among stakeholders including the office of Los Angeles County Supervisor Mark Ridley-Thomas and the City of Compton.
- Pine Avenue Park in the City of Maywood was dedicated on November 12. This project was executed by the Trust for Public Land with an RMC grant of nearly $550,000, and brings the total number of parks in Maywood to four.
