Learn More About Measure M On Your November 2016 Ballot

Measure M is a Los Angeles County transportation tax and spending plan on your November ballot.

If approved by two-thirds of voters, Measure M will double the transportation sales tax previously approved by voters in 2008 and will have no end date.

Measure M's spending plan includes a priority list for transportation projects. Projects in some areas of the county have earlier completion dates, while projects in other areas are not scheduled to be completed for decades.
