Announcing: an important opportunity to participate in shaping the delivery of transit services in our region.

The Metropolitan Transportation Authority (MTA or Metro) has decentralized its bus operations into five sectors. Each sector has a general manager with responsibility for providing service along certain bus routes. Each sector also has a Sector Governance Council to provide oversight to the Sector’s operations and to make certain route, scheduling and management decisions in connection with this service.

The Gateway Cities Service Sector Governance Council announces an application period for one position due to a resignation. The Gateway Cities Council of Governments (COG) will be making nominations to this position. The MTA Gateway Cities Service Sector consists of the Gateway Cities COG member cities (except Montebello which is in the San Gabriel Valley Sector) and certain adjacent unincorporated areas. Applications are invited from now through May 23, 2007. Please note that the nominee for this position may not be an elected official. We are seeking consumers of transit who live or work in the Gateway Cities area. These could include bus riders, or families, businesses and institutions that depend on or subsidize transit services for family members, students, customers or employees.

Following is the application form to be completed and returned to the COG office no later than 4:00 p.m. May 23, 2007.

In accordance with the Americans Disability Act, this information may be obtained in alternative format by calling (562) 663-6850.
