

The Southern California Regional Energy Network (SoCalREN) Public Agency Programs offer customized support to help public agencies save energy and money and lead their communities to greater sustainability. GCCOG is proud to partner with SoCalREN to bring their suite of services to the Gateway Cities!

Together, we'll ensure SoCalREN's programs are accessible for public agencies, especially those supporting underserved and hard-to-reach communities in the Gateway Cities. Check out some of SoCalREN's successes* in our region below, or learn more on [our website](#).

Gateway Cities Enrolled in SoCalREN

— Gateway Cities service territory ■ SoCalREN-enrolled agencies

Being part of the SoCalREN Public Agency Programs means "having a trusted partner to help the City meet its energy conservation efforts."
