**VII. Reports**

**A. I-710 EIR/EIS Project Update**

A brief update and presentation was provided by Ernesto Chaves, Metro. Ernesto reported that a copy of the Final Administrative Draft EIR/EIS was provided to the U.S. Environmental Protection Agency (EPA) for their review and they ultimately determined that they couldn't agree that the project met air quality conformity, even with the proposed clean Truck Program (CTP),

and would be a “Project of Air Quality Concern.” Ernesto noted that the CTP was not enough to reach an agreement and that now Metro and Caltrans can’t move forward with the full FEIR-FEIS. At this time a new path forward is needed including the possible option of only early action projects. He noted that the good news is that the Shoemaker bridge is moving ahead as an independent early action project as well as the sound walls and ICM projects, and that none of these would be stopped. He anticipated additional information next month.

Upon conclusion of the report the Port of LA (Kerry Cartwright) asked if there was a sense of timing to be moving ahead. Ernesto noted that the next three months would be critical. Kerry also asked how the EIR/EIS impact impacts the pledged funds towards the truck program and Ernesto responded that the Metro Board will opine on it but is likely not going to be impacted and will remain a \$50 million allocation. Kerry also asked if a conformity determination would be needed for early action projects the response was yes. Ernesto also noted that another factor would be the issue of the document becoming dated and needing additional analysis as well as addressing SB 743. Lastly it was noted that there will be a formal update to the I-710 Funding Partners.

A brief update regarding the ICM was provided by Ed Alegre. The integrated corridor management project continues to progress.

It was moved by (Dan Garcia) Compton, seconded by and (Carl Hickman) Long Beach to Receive and File the report. The motion was approved without objection, and one abstention from Bell Gardens.

## **B. Current 710 Early Action Project Update**

Oral Report by Metro. Ms. Alex Ferguson, Metro provided an oral report, noting that handouts were provided in the TAC agenda package to show Cash Flow (Freeway & Non-Freeway)/Invoicing Status, as well as the Jurisdictional Equity – Table/Pie-Chart.

It was moved by (Bill Pagett) Paramount, seconded by (Daniel Hernandez) Commerce to Receive and File the report. The motion was approved without objection, and one abstention from Bell Gardens.
