MDT conducts ongoing follow up appointment for intensive case management on a weekly basis

Continue to respond to LA-HOP requests as needed and regularly scheduled.

2 ptc. Signed leases

HYC Outreach: 5/4, 5/11, 5/18, 5/25

Success Story:

Our SUD peer counselor that accompanies our team during outreach was able to build rapport with a female participant in Huntington Park. The LASHA HET had been working with the participant and referred her to our SUD peer counselor. After a couple of weeks engaging with the participant, he was able to transport her to an inpatient facility in Burbank.

This is another great example of the collaborative work provided in our SPA and the resources each agency can provide. Each agency has a unique trait that can accommodate the different needs of our homeless neighbors.

The organization Inner city Visions will be joining our SPA and providing homeless outreach services in the city of Huntington Park. we have scheduled an introduction meeting and excited to see how our future collaborations and successes will look these next coming months.

On Wednesday, May 18, 2022, the City of Montebello hosted a grand opening ceremony for their new tiny homes project, Operation Stay Safe. Members of local government from across the region were present to share how excited and grateful they were for this interim housing site to be opening. A project like Operation Stay Safe had been a dream of theirs for many years, and all present shared how thrilling it was to finally see it come to fruition. Everyone presenting at the event gave accolades to Montebello's MCAP team, praising them for their tireless efforts on the frontlines in the fight to end homelessness. California Senator Susan Rubio even made an appearance and shared how proud she was of cities like Montebello, who were dedicating their time and resources to the most vulnerable among us.

Once the speeches came to a close, it was time to cut the ribbon for the grand opening! The excitement was palpable as city officials, service providers, and residents of Montebello inched closer and closer for a peek of what awaited them inside. The chatter of "oohs and aahs" filled the Operation Stay Safe courtyard as attendees toured the city's newest interim housing site. The residents of Montebello and the surrounding cities were clearly impressed and proud of what this team had accomplished. A couple of Operation Stay Safe's future residents were even invited by the MCAP and PATH's housing navigator to join in the festivities that day and toured the grounds with the rest of the crowd. Celia, who has been working with MCAP and PATH for more than 2 years, looked around in amazement at the place she would soon be staying. With a slight smirk on her face, she leaned over to her PATH case manager and whispered, "I call the cottage in the corner over there, under the shady tree." Isaac, another MCAP and PATH participant, also made his rounds and even got a chance to chat with Senator Rubio!

This 30-unit tiny home village was developed by the City of Montebello in partnership with the Fire Department's Montebello Community Assistance Program (MCAP), the San Gabriel Valley Regional Housing Trust (SGVRHT), and the San Gabriel Valley Council of Governments (SGVCOG). The city of Montebello has contracted with Volunteers of America (VOA) Los Angeles, who will be operating the facilities at Operation Stay Safe and providing on-site case management to its residents. Over the course of a single year, the City of Montebello and VOA are hoping to serve 120 people experiencing homelessness and connect them to permanent housing resources.

Narrative, continued

Along with services from VOA, the city of Montebello also plans to coordinate with other service providers in the area to bring in other vital services such as employment, mental health, and much more. As the city of Montebello finishes up the final touches on this site to get units move-in ready, the MCAP team and their PATH housing navigator will continue to identify participants for slots in this tiny home community. If all goes according to plan, participants can begin moving in this summer and take one step closer to making it home!

Union Mission has an MDT outreach team. although they cover SPA 3, the city of Montebello has acquired some more support. We have met with Emily the Director of the CES and Adults Programs. the Union MDT (UMDT) will begin collaborating with PATH's MDT and MCAP beginning June 1st.

Pico Rivera-

MDT

5/26/22 SLAARP Meeting via zoom 1:00-2:00pm (Ashley attends)

Success Story:

This month KCB would like to highlight a new housing preparedness program that they launched for recently housed clients and clients who are in the process of looking for permanent housing. The new workshop is entitled "Moving On" and was hosted in the KCB community center, the first workshop was held on Friday May 13th from 12pm-2pm in the afternoon. The workshop is designed to help prepare homeless neighbors to reflect on their own wellness and emotions regarding being housed, to listen and learn from a formerly homeless person about their experience obtaining housing, and to receive further guidance on the move in process and how to be a good neighbor. The curriculum was formed by the Director of Homeless Care. Because all the participants of the event were over 50 years old, we were able to fund the event with United Way Older Adult Flex Funds to provide free lunch, pizza gift cards and household items to take with them for their new or potential homes. The event went well, and it was beautiful to see our neighbors (clients) not only learn and have the space to share what they are feeling, but also to connect with one another and develop new relationships with people who know exactly what they are going through in their lives. KCB would like to continue to host these workshops to help further the work done in case management services and provide more empowerment and support to our homeless neighbors that we work with for services. We are looking forward to hosting these workshops at least twice a month in our community center. The feedback from those who participated was positive across the board and they were thankful to get this information and support. Some of the recently housed neighbors also expressed interest in being speakers at future workshops.

Needs:

An affordable housing unit in our LCA 3 region.
More shelter beds in our LCA 3.
More staffing or help for those who are at risk or couch surfing.
Hygiene kit donations.
More access to shower services during the work week for people who are street homeless in LCA 3.
Another shelter for homeless families in LCA 3-Help advocating to the family service agency in SPA 7, they need more shelter, case management and interim housing until they can find a unit to lease up in.
Trash pickup services offered to local recurring encampments and hotspots in LCA 3, to help homeless neighbors feel supported and seen, but also to create healthy accountability to keep our cities clean and cared for when they are staying on the street- they are members of the community as well.

LCA 4

Haley Fuselier at haleyf@epath.org or 310.801.8922

Thank you for your partnership with PATH in ending homelessness in your community.

SPA 7 COG Outreach Coordination Highlights

Outreach Collaborations:

Outreach Collabs are on the grow. the Los Angeles Riverbed protocol collaborations are now complete. we still have outreach teams servicing the area and assisting anyone who plan or have return to the location in linking them to services.

coyote creek: our collaborative outreaches are active and have a large majority actively engaged and connected to a housing resource. time is still needed in locating permanent housing for individuals who have EHV's in hand.

PATH community meeting: June 2nd PATH will be hosting a SPA wide meeting for all outreach teams and homeless providers. this meeting will be surrounding educating the providers on the new and upcoming policies regarding outreach, housing navigations, and

Housing Navigation: with the new changes surrounding HN and teams hitting their goals has allowed PATH to schedule Case Conferencing meetings to help the flood of referrals before July.

Tiny Homes: the Montebello Stay Home Tiny Homes initiative is now open. Wednesday 5/18/22 celebrated the opening of their tiny homes community. resident are expected to begin moving in Next week and have already filled with the help of PATH and MCAP's outreach teams.

Hot Spots:

Thompson's RV

Coyote Creek

E.LA RVs

Rio Hondo Riverbed

Faith-Based: a few churches have been working with PATH's Outreach Coordinator to provide scheduled Connect events and referrals for churches connecting the homeless population to services in SPA 7.
